

Testimonial: UES International Pty Ltd

The only thing better than this chair is the service my company received from UES International. From the in-office demo, to the immediate follow-up and delivery, Paul made sure that my clients were 100% satisfied with their purchase. Likewise, the Salveo is an amazing piece, beautifully designed and constructed. This chair is easily adjustable and holds you in "Perfect" posture - not a bolt upright "support" but a comfortable natural feel. Expensive - well, yes but worth it, considering my clients spend more than 8 hours a day in it. Just like buying a great mattress for your bed, but maybe more important- the Salveo chair eliminates disc and nerve pressure, thus increasing comfort. I use and recommend the Salveo chair to all my clients. It's only side-effect is greater productivity!
